BORROUGHS: ORDERING INFORMATION

HOW TO ORDER

Orders may be placed by authorized Borroughs dealers.

Mail: Borroughs Corporation
Attn: Storage Products Order Entry
3002 N. Burdick Street
Kalamazoo, MI 49004-3483

Email: customerservice@borroughs.com

Storage Products: 1-800-748-0227 • Fax: 1-269-342-4161

(Orders Only) Fax: 1-800-375-1327

All orders must show quantity, catalog number, description, color and customer purchase order number. Borroughs does not assume responsibility for errors on orders not submitted in writing.

ACKNOWLEDGMENT

Borroughs will issue a written Order Acknowledgment for each order accepted. Estimated ship dates are stated on Acknowledgments. All orders are considered correct as acknowledged. **Order changes may affect estimated ship dates! Customer should review Acknowledgment promptly and notify Borroughs of any error.** Hard copy Acknowledgments will not be issued until all the engineering has been completed.

ORDER CHANGES / DELAYED SHIPMENT OR ORDER CANCELLATION BY CUSTOMER

Orders may not be cancelled or modified within 2 weeks of the estimated ship date without penalty.

Order changes, delayed shipments and cancellations by customer will generate a written acknowledgment from Borroughs. Such written acknowledgment may create a partial or full billing based upon any changes. Order Changes - Borroughs will issue a new Order Acknowledgment for each change from the original purchase order. Order Acknowledgments will include an estimated ship date. **Should the new estimated ship date cause shipment to be delayed beyond the end of a month the Customer understands and agrees that they will be billed 50% of the amount of the purchase order.** Payment terms will be the same as stated herein.

Customer Delay- **should the customer request a delay in the shipment of finished goods beyond the agreed ship date then Borroughs will be entitled to invoice the Customer the full amount of the purchase order or the unpaid portion of the purchase order.**

Customer Cancellation- **should the customer cancel an order in production the customer understands and agrees that Borroughs will bill the customer 50% of the purchase order for standard products; and 100% of the purchase order if custom products and/or paint and/or special parts or materials have been purchased by Borroughs.**

SMALL / MINIMUM ORDER POLICY

Borroughs has a \$250.00 net, plus shipping costs, minimum charge for any order processed.

SPECIAL MARKING AND PACKAGING

Custom crating, marking, palletizing or export packing is subject to special pricing; and quotations must be made in advance of order placement. Contact Borroughs' Customer Service to determine exact charges.

SHIPMENT TERMS

All orders will be shipped F.O.B. shipping point. Shipments will be "best way" with freight charged prepaid and added to invoice. Special carrier or special delivery arrangements can be accommodated. These should be requested in writing as part of the order. Special packaging costs, such as pallets, will be purchaser's responsibility.

Customer Pickup / 3rd Party / Collect Shipments – **Borroughs Shipping Department will contact the carrier that customer has chosen or our customer directly and will set up date and time for carrier to pick up order. When the date and time is scheduled, carrier has 24 hours to pick up order. Should the customer's carrier not pick up the finished products within 24 hours of the appointment, customer understands and agrees that Borroughs will then ship "best way" with freight charged prepaid and added to the invoice.**

PAYMENT TERMS

.5% - 10 days; net 30 days. (Different terms may be applied outside continental U.S.). No cash discounts on freight, taxes or services. A .5% per month finance charge will be added to all unpaid balances after 30 days.

COLOR POLICY

Product	#065 Industrial Gray	#445 White	#C386 Red	#B504 Blue	#F604 Pebble	#161 Mist Gray	#040 Black
BOX EDGE PLUS® Steel Shelving	Std.	Std.	Std.	Std.	Std.	Std.	Std.
HD Drawers	Std.	Std.	Std.	Std.	Std.	Std.	Std.
Commercial Grade Steel Shelving (RTA Clip-Type)	Std.	N/A	N/A	N/A	N/A	N/A	N/A
RIVET-SPAN®	Std.	Std.	Std.	Std.	Std.	Std.	Std.
Slotted Angle	Std.	Std.	Std.	Std.	Std.	Std.	Std.
Shop Equipment	Std.	Std.	Std.	Std.	Std.	Std.	Std.
Utility Carts (Commercial only)	Std.	N/A	N/A	N/A	N/A	N/A	N/A

NOTE: Shelf Box Partitions are #445 White.

Custom Color Upcharge: Consult Borroughs Customer Service for availability of colors other than those listed above. Custom color orders, if accepted, will be subject to manufacturing schedules and an upcharge based upon material, quantity, and color. Samples must be approved in writing before order is accepted for firm shipping date. Custom color orders are not subject to cancellation nor return and must be one order and delivery location.

DAMAGED SHIPMENTS

Responsibility - Delivery to the carrier shall constitute delivery to the customer. Borroughs' liability ends upon delivery of products to the carrier. Goods are shipped at the customer's risk. All claims for product lost or damage in transit shall be made by the customer.

Visible Damage - Should be noted on the freight bill and acknowledged by the driver's signature.

Concealed Damage - Notify the freight agent if concealed damage is found within 15 days of delivery. Request an inspection. An inspection is necessary for filing a claim.

RETURN SHIPMENTS

Return shipments may be authorized within 60 days of original shipment. You must have written authorization from Borroughs prior to any return. Authorized returns must be packaged properly using original cartons. They are to be shipped with freight prepaid by customer. All returns are subject to a 30% restocking charge for In Stock items. Custom product items, buy-out items including custom colors, may not be returned. All returns subject to any reconditioning charges determined necessary by Borroughs upon inspection of the returned goods.

PRICES

Prices in this price list supersede all previous prices and are in effect as of the date of this publication. Prices are subject to change without notice.

NOT OFFER TO SELL

Possession of this price list is not to be construed as an offer to sell the products listed. Borroughs reserves the right to discontinue any item in this list without notice. Borroughs reserves the right to change material and design specifications at any time, and without obligation to make corresponding changes in products manufactured previously.

TAXES

Any manufacturer's sales or excise tax, or any other tax or government charge now or hereafter levied upon the product, sale, use or shipment of goods shall, at the Company's options, be charged to the customer.

WARRANTY

Borroughs Corporation extends to the original purchaser from the date of purchase a **limited lifetime warranty** for Borroughs' **Automotive Workstations** and **Modular Drawer Cabinets** against manufacturing defects in material and workmanship. For all other products Borroughs extends to the original purchaser from the date of purchase a **5-year limited warranty** against manufacturing defects in material and workmanship.

If a Borroughs product fails to perform because of a manufacturing defect, Borroughs will examine it. If found defective, it will be repaired or replaced at our option.

This warranty applies only to Borroughs products acquired directly from Borroughs Corporation or from Authorized Borroughs Dealers.

This warranty does not apply to any product which has been subject to misuse, negligence, or accident; has been damaged in shipment, storage, or installation; has been misapplied or has been modified or **repaired by unauthorized persons** or been repaired with non-standard Borroughs replacement parts. This warranty specifically excludes claims for indirect, incidental, or consequential damages arising in any way from a product defect.

This warranty is exclusive, and exists in lieu of all other warranties, either expressed or implied.

This warranty gives you specific legal rights; you may also have other rights which may vary from state to state.

Contact your Borroughs Selling Dealer, to obtain warranty service. You must make a written claim. Provide a copy of your purchase record and a written description of the warranty problem with your claim.

If you are unable to contact your Dealer, contact:

Borroughs Corporation, Customer Service Manager, 3002 N. Burdick St., Kalamazoo, MI 49004-3483. Phone: 1-800-748-0227

Specify any standard color

Swing-type doors for angle post shelving are made of 20 gauge cold-rolled steel with a 3-point locking door handle. Doors consist of fully contained welded steel frame, which bolts to the face of the unit simply and easily. Framed doors are available to fit shelving up to 7'3" tall. Two or more standard-sized doors are used for heights of 7'3". A special 4'0" high door is made for use above ledges. Doors will fit high density drawer units. Doors are not compatible with Beaded Post or Beaded Closed Sides. Adds 2-1/16" to depth of unit.

Basic Data

Widths

Nominal unit width: 24", 36", 42" or 48"
Actual beaded post unit width is the nominal width plus 1"
Actual angle post unit width is the nominal width

Depths

Nominal depth: 12", 15", 18", 24", 30", 32" or 36"
Actual beaded post unit depth is the nominal depth plus 15/32"
with beaded post in front and angle post in back
Actual angle post unit depth is the nominal depth

Heights

Nominal height: One foot increments from 3'3"/39" to 16'3"/195"
Actual height is the nominal height minus 1/4" ±1/16"
NOTE: Unit anchoring is recommended when the height to depth ratio exceeds 4.
EXAMPLE: 7'3"/87" high x 18" deep unit has a height to depth ratio of 4.873 and should be anchored to a firm restraint such as a floor or wall

Length of Run

Actual length of beaded post shelving run in nominal unit width per unit plus 1/2" for each row end.
Actual length of angle post shelving run in nominal unit width per unit

Clear Shelf Opening

Actual clear opening between beaded posts is the nominal width minus 1"
Actual clear opening between angle posts is the nominal width minus 2"
Vertical clearance between shelves is equal to center-to-center shelf spacing minus 1-7/32"

Vertical Adjustment

All shelves are adjustable on 1-1/2" centers

No. Braces:	16	14	13	11	10	8	6	3	

Fig. 2

Fig. 3
Side Brace

Light Loading

Both single and double rows may use sway braces as in Figures 1 and 2. The end and back of the first and last section of each row always contains a sway brace. Every other intermediate and every other back should contain a sway brace. The height location of the sway brace is determined as in Figure 3, where the center line of the cross is "height divided by 3" up from the bottom.

NOTE: FOR CRITICAL SHELF LOCATIONS, MINOR CHANGES TO THESE RECOMMENDATIONS ARE ACCEPTABLE.

Fig. 4
Back Brace

Fig. 4A
Side Brace

Standard Loading

For rigidity in standard duty applications, a pair of sway braces should be put in every opening at the heights illustrated in Figure 4. Each open end should be braced as illustrated in Figure 4A.

Fig. 5
Back Brace

Fig. 5A
Side Brace

Connection point as close as possible to mezzanine level- may be either above or below level.

M = maximum distance possible - up to and including 30"

d = minimum reasonable distance (e.g. 4.5" - 6.0")

Multi-Level Application

For rigidity in mezzanine applications, two sway braces should be put in every other opening at the heights illustrated in Figure 5. The intervening openings should be braced with one pair of sway braces as shown. The term "d" equals the distance for mounting the sway braces to the post from the floor. Bolt the front of the center shelf and the front of the top shelf and the base strip in place. The open ends should be braced as illustrated in Figure 5A.

For Units Over 99" High

Fig. 6
Back Brace

Fig. 6A
Side Brace

Fig. 6B
Side Brace

Light Loading

For rigidity, Borroughs recommends that one pair of sway braces be installed in each open end and open back. Sway brace height is as shown in Figure 6. Figure 6A and 6B are an end and an intermediate, respectively. The bracing patterns are opposite each other and should alternate from one end of a row down to the other end. Pre-assembly of the two uprights is identical.

NOTE: FOR CRITICAL SHELF LOCATIONS, MINOR CHANGES TO THESE RECOMMENDATIONS ARE ACCEPTABLE.

Fig. 7
Back Brace

Fig. 7A
Side Brace

Fig. 7B
Side Brace

Connection point as close as possible to mezzanine level - may be either above or below level.

M = maximum distance possible - up to and including 30"

d = minimum reasonable distance (e.g. 4.5" - 6.0")

Standard Loading and Multi-Level

For rigidity, Borroughs recommends that sway braces be used in open backs as illustrated in Figure 7. Sway brace height is as shown in Figure 7. Bolt the front of the center shelf and the front of the top shelf and the base strip in place. Sway bracing for the ends of sections should be installed as shown in Figure 7A for heavy-duty and Figure 7B for multi-level applications.

PLEASE NOTE: FAILURE TO FOLLOW THESE SWAY BRACING RECOMMENDATIONS COULD RESULT IN AN IMPROPER INSTALLATION, SHELVING COLLAPSE, PERSONAL INJURY AND/OR COMMODITY LOSS.

BOX EDGE: SEISMIC RISK MAP OF THE U.S.

All areas of the United States have been zoned seismically. Each zone indicates the anticipated intensity or severity of a seismic occurrence within that region. Zones range from 0 (least likely) to 4 (most likely) to experience damage.

NOTE: Special care should be taken when specifying any system in a highly seismic area.

HD DRAWERS, SIZES, AND SPECIFICATIONS

28 DRAWER SIZES

Drawers have 7 different heights: **3", 4¹/₂", 6", 7¹/₂", 9", 10¹/₂", 12"** and **Roll-Out Shelf**. Drawers can be arranged and rearranged to keep your storage system efficient as your operation grows and changes. They can be installed in any combination as long as the total height of the drawer fronts does not exceed the height of the mounting upright panels.

FEATURES

- Drawers fully extend to view and access entire contents.
- Roller bearing suspension for smooth operation.
- Each drawer will support up to 400 pounds of an evenly distributed load.
- Partitions and dividers can be added for custom configuration.
- All hardware and easy-to follow instructions are provided for fast installation.
- Drawer dividers and partitions are galvanized steel & factory installed.

HD DRAWER PARTITIONS & DIVIDERS

PARTITIONS

Galvanized, slotted steel partitions create major drawer interior storage spaces. Partitions slide into slots on drawer walls to span the full depth of drawers—and, allow the addition of dividers to further subdivide the drawer's interior.

DIVIDERS

Galvanized steel dividers subdivide the storage spaces between partitions or partitions and drawer walls. Dividers simply drop into slots in partitions and drawer walls making storage space adjustments quick and easy. Slots in partitions and drawer walls are on 20mm (3/4" nominal) centers. Divider widths are measured by the number of drawer wall slots the divider spans (i.e. a 4s divider will span 4 slots). Dividers are available in heights to match partitions and in 17 widths (*refer to page 27*). The 36" wide drawer has 39 slots and the 48" wide drawer has 54 slots.

PRE-CONFIGURED DRAWER SYSTEM PART NUMBER LEGEND

Shelving not included.

Pre-Configured units come with: Mounting Upright Panels, Drawers, Slides, Partitions and Dividers (partitions and dividers are factory installed).

All units include metal framing only. Decking material must be ordered separately (See Page 34).

*Includes (1) support tie per level except 96" which has (2) support ties.

**Units with channel beams have angle beams with support ties located directly at the floor level.

***Capacities are for steel beams only with evenly distributed loads and do not reflect the capacity of the decking material.

All units shipped K.D.

**Extra shelf levels 24" deep or less include left-to-right beams only. Extra shelf levels 30" or deeper also include front-to-back single rivet beams.

All units include metal framing only.
Decking material must be ordered seperately.

* All units include double rivet angle beams, left-to-right and front-to-back, at the top and bottom beam levels.

*** Capacities are for steel beams only with evenly distributed loads and do not reflect the capacity of the decking material.

Shelf units 24" deep or less include only (2) intermediate front-to-back single rivet beams. Units 30" or deeper include front-to-back single rivet beams at every intermediate beam level.

All units shipped K.D.

Important:

Wall, floor or top tie anchoring is recommended for units when the height to depth ratio exceeds 4.

Example: A 7'/84" high x 18" deep unit has a height to depth ratio of 4.67 and should be attached to a firm restraint, such as a floor, wall or tied overhead across the aisle to an opposite upright assembly.

Intermix Beam Families on the Same Beam Level

These beam families can be intermixed without decking problems:

- Single Rivet Beams
- Double Rivet Low Profile Beams
- Double Rivet Z Beams

These beam families can be intermixed without decking problems:

- Double Rivet Angle Beams
- Double Rivet Channel Beams

The above groupings cannot be intermixed and support decking.

Units / Posts

Overhead View

Important:

Wall, floor or top tie anchoring is recommended for units when the height to depth ratio exceeds 4.

Example: A 7/84" high x 18" deep unit has a height to depth ratio of 4.67 and should be attached to a firm restraint, such as a floor, wall or tied overhead across the aisle to an opposite upright assembly.

Specification Data

Rivet-Span® shelving units are made up of posts, side-to-side beams, and front-to-back beams. There are certain minimum requirements for beam use to ensure structural stability and safety. For example: all units must have a full "perimeter" of double rivet beams, meaning two side-to-side and two front-to-back, at both top and bottom of unit for stability. There are other requirements, see below.

Preconfigured Units - Include all required beams. Installation instructions (included with shipment) show how to position beams correctly.

Non-preconfigured Units - Follow these guidelines when specifying individual components:

- All units require a full perimeter of double rivet beams at top and bottom of unit.
- Single Rivet Beam (SRB) and Double Rivet Low Profile Beam (DRLPB) units 24" deep or less:
 - do not require SRB's front-to-back at each intermediate level in the unit.
 - 6'-8' high must have one SRB intermediate level front-to-back, located approximately in the middle of the unit.
 - 9'-10' high must have two SRB intermediate levels front-to-back, located to divide the height into 3 equal parts.
 - 11'-16' high must have three intermediate levels; a full perimeter of Double Rivet Beams (DRB) in the middle plus intermediate levels of front-to-back SRB's in the upper and lower halves of unit.
- Single Rivet Beam (SRB) and Double Rivet Low Profile Beam (DRLPB) units 30" deep or greater:
 - All units must have SRB's front-to-back at every intermediate level; units 11'-16' must have SRB's front-to-back at every intermediate level PLUS a full perimeter level of Double Rivet Beams (DRB) located approximately in the middle of the unit.

- Double Rivet Angle Beams (DRAB) and Double Rivet Channel Beams (DRCH) must have front-to-back beams at each beam level to provide decking support and ensure stability. When using DRCH from side-to-side, DRAB must be used from front-to-back.

- Tie Plates are recommended to tie adjacent Angle Post units together and to ensure structural stability. Tie plates should be used at the top and bottom of adjacent posts with additional tie plates spaced no more than 48" apart. Tie plates are not used on units with T Posts.

Basic Data

Widths

Nominal unit width = 24", 30", 32", 36", 42", 48", 60", 69", 72", 84" or 96"
 Actual single unit width = nominal width + 1/2"

Depths

Nominal unit depth = 12", 15", 18", 24", 30", 32", 36", 42" or 48"
 Actual single unit depth = nominal depth + 1/2"
 Actual back-to-back units depth = combined actual single unit depths + 7/32"

Heights

Nominal unit height = 6'/72", 7'/84", 8'/96", 10'/120", 12'/144", 14'/168", 15'/180" or 16'/192"
 Actual unit height = nominal height ± 1/32"

Length of Run

Actual length of run = sum of actual unit widths + 7/32" per adjoining unit

Horizontal Clear Openings

Actual clear opening between angle posts = nominal width - 2-5/8"
 Actual clear opening between heavy-duty angle posts = nominal width - 3-1/4"

Vertical Adjustment

All beams are adjustable on 1-1/2" centers

Vertical Clear Openings

Vertical clearance calculated using 5/8" thick decking material.

Decking Material

Particle board decking, 5/8" (.625) thick, is available pre-cut from Borroughs and your local Borroughs Distributor. It can also be obtained from your local building material supplier. Other types and thicknesses of decking material, such as plywood, structure wood, oriented strand board or wire decking may be desired based upon load or use. These also can be obtained from your Borroughs Distributor.

When supplying your own decking material, cut the decking to the nominal unit size +0" - 1/8" (.125). If single rivet beams or double rivet low profile beams are being used in the left-to-right position, cut the decking material 3/16" (.188) under the nominal unit depth for easier assembly. Similarly, if either of these types of beams are being used in the front-to-back position to support the decking, also cut the decking material 3/16" (.188) under the nominal unit width.

Calculated Post Capacities

Pounds Allowable Load Per Post

Maximum Beam Spacing In Inches	Angle Post	Heavy-Duty Angle Post
48"	1,170	1,750
42"	1,315	1,960
36"	1,460	2,180
30"	1,605	2,390
24"	1,750	2,610
18"	1,896	2,830
12"	2,040	3,050

• Maximum beam spacing is determined as the distance between left-to-right beams or front-to-back beams, whichever is greater.

• Capacities are for vertical loads only where seismic forces are not a factor.

96"	-	-	-	-	240	650	1,300

*One support tie except 96" which has two.

**The longest pair of beams at a given level determines the capacity for the entire level. Capacities are for steel beams only and do not reflect the capacity of the decking material.

Important:

Wall, floor or top tie anchoring is recommended for units when the height to depth ratio exceeds 4.

Example: A 7/84" high x 18" deep unit has a height to depth ratio of 4.67 and should be attached to a firm restraint, such as a floor, wall or tied overhead across the aisle to an opposite upright assembly.

Important:

Wall, floor or top tie anchoring is recommended for units when the height to depth ratio exceeds 4.

Example: A 7'3"/87" high x 18" deep unit has a height to depth ratio of 4.83. Two 8'3"/99" high x 12" deep units back-to-back have a height to depth ratio of 4.12.

These units should be attached to a firm restraint, such as a floor, wall or tied overhead across the aisle to an opposite upright assembly.

-----------	--------------	---	------	--------------

NOTE: Connection Load Limit: With a safety factor of 1.5, the load limit per bolt is 1120 lbs.
(Example: A shelf loaded with 5000 lbs. would result in load of 1250 lbs. per connection and would require two (2) bolts per connection).

Note:

Rivet-Span automotive pre-configured units with (-) are basic units and do not include any specialty components other than divider arms, loop divider bars, wall ties or back spacer ties. Models with (+) are complete units and include all necessary wood decking/pegboard, cardboard sleeves, acrylic rods, J rails and hooks, or magnetic label holders.

Rivet-Span automotive pre-configured units' double rivet beams are Double Rivet Angle Beams except on Tire Racks which have Tire Beams in the left to right positions.

Support Ties not included in any pre-configured Rivet-Span automotive units. Refer to Beam Capacity Chart to access your application

Rivet-Span horizontal molding units' acrylic divider rods must be field cut to length.

All units shipped K.D.
